PRINCIPAL'S NEWS

7 September 2021

When we arrived back at school after camp, I couldn't help but smile at the interactions as parents came to collect their children. There were plenty of hugs, a few happy tears, and lots of animated discussions as children excitedly shared the details of their camp experience. There really is nothing more special than the relationship between a parent and a child. Every relationship is special and unique and so it was very pleasing that our community celebrated Fathers' Day with an enormous number of parents and grandparents present.

Parenting is one of those things that you don't fully 'get' or appreciate until you've done it. It is absolutely the most undervalued and yet important thing that any of us can do, and it is clear that parents at our school do a brilliant job of bringing up children. Thank you for the support we always receive for whole of school events and your efforts to parent well every day. It is a great way to invest your time. I hope you all found some time to celebrate with your families on the weekend.

SPORTS NEWS

TENNIS QUEENSLAND PRIMARY SCHOOLS CUP

The Tennis Queensland Primary Schools Cup is a mixed team competition for Queensland Primary Schools. St Patrick's nominated a team of 4 students to represent our school in the Wide Bay Green Ball Championships. Competing students were Lachlan Rae, Christian Rae, Dylan Ashley & Erin Kirk. These students were wonderful ambassadors of our school, displaying great skill and sportsmanship throughout the event.

The team was successful and were awarded Wide Bay Champion School in 2021. This is an amazing achievement and we congratulate them on their success. They have now been invited to compete at the State Final at the Brisbane Tennis Centre in January...an amazing opportunity for these students. Well done, Erin, Christian, Lachlan & Dylan.

SPRING HOLIDAY

ENGINEERING, ROBOTICS & ELECTRONICS 2 DAY CAMP

WONDER KIDZ

Building 5 - CQU Bundaberg Campus

Thursday 23rd September to Friday 24th September

Eligibility	Date	Time	Fee	No. of Days	Book online
Yr 1 - 8	21 Sept - 22 Sept	9:00am to 3:00pm	\$165	2	www.trybooking.com/BTOZT

From Sustainable farming to self-driving cars, **Advanced Engineering & Robotics** model a range of real-world situations that teach students a complete understanding of how the technology works and used to solve the issue at hand. The engineering lessons engage kids with a hands-on learning environment and immerse them in the applications and possibilities of modern technologies. Through PBL (Project-based learning), students combine hardware, Lego® compatible building blocks, and coding to create a prototype and solve real-world problems. The projects are designed to encourage students to invent other viable solutions to these real-world issues and explore ways to utilize existing technology. The completion of these projects will boost confidence and create problem solving ability in students to overcome any challenge from working in their future jobs to solving our world's current or future problems. **All activities are adjusted to the student age and we tackle different challenges on each day.**

STEM EDUCATION

Early bird discounts apply automatically on booking page. Limited spaces available.

YOUNG ENGINEERS

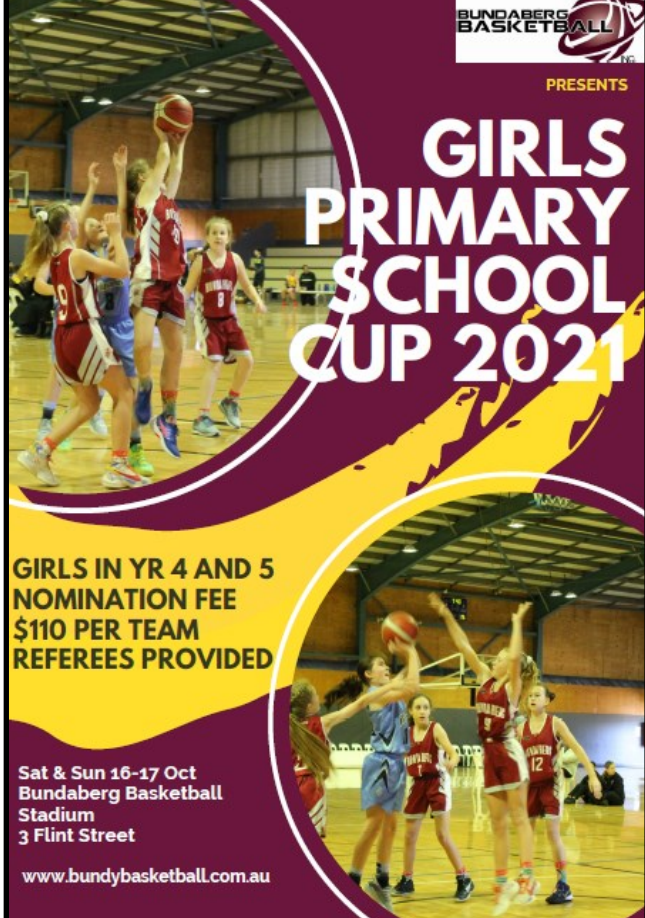

Build Your Tomorrow. Today!

Engineering & Robotics Program provides theoretical knowledge in software and mechanical engineering combined with mathematics and physics.

Electronics: Our electronic kits are specifically designed to minimise assembly time which creates more opportunity to explore the learnings behind how each experiment works. Learn to build circuits in the classroom.

Build-Up Program is designed for little children where they start from learning the basics of building Lego Models including improving them and end up building models independently with a friend and enjoying group game.
